## SKILLS

Python

Django

MySQL

Web Development

Time Management

Neo4j

Problem Solving

## LANGUAGES

English

Full Professional Proficiency

Tamil

Native or Bilingual Proficiency

Hindi

Professional Working Proficiency

## INTERESTS

Machine learning

UI/UX Design

Building Web Applications

Team Collaboration

## EDUCATION

B.E (ECE)

Prince Shri Venkateshwara Padmavathy Engineering College/Chennai

09/2023 - Present

Higher Secondary (12th)

KKN Matric Hr Sec School/Erode

06/2022 - 05/2023

## CERTIFICATES

Python Certificate (04/2023 - 12/2023)

Python Fundamentals, Data Handling, File Operations, String Manipulation, GUI Programming Functions, Python Matplotlib, OOPs

Fullstack Certificate (07/2023 - 08/2023)

HTML, CSS, Javascript, JQuery, Django

LEAP Certificate (09/2023 - 09/2023)

LPB01-Reverse Engineering and LPB02-Arduino Bootcamps

PCB Workshop (10/2024 - 10/2024)

Hands-on Training on PCB Design, Fabrication and Testing of Power Electronic Converters

Neo4j Certificate (07/2024 - 12/2024)

Neo4j Graph Data Science Certification

Ethical Hacking Workshop (02/2025 - 02/2025)

Technocruise conducted by TECHKRITI'25, IIT Kanpur

Machine Learning Workshop (03/2025 - 03/2025)

Technocruise conducted by TECHKRITI'25, IIT Kanpur

## PERSONAL PROJECTS

BMI Calculator (06/2023 - 06/2023)

- Developed a BMI Calculator using Python Tkinter with user-friendly GUI for real-time health metrics calculation.

Admission Login Page (07/2023 - 08/2023)

- Built a secure admission login system using HTML, CSS, JavaScript, and Django, enabling user authentication and efficient data handling through backend integration.

Finance Calculator (08/2023 - 09/2023)

- Designed a financial calculator using Python to perform key calculations such as interest and budgeting, improving accuracy and usability for financial analysis.

The Sovereign Awards Website (07/2025 - 07/2025)

- Developed a fully responsive event website showcasing global award categories, nomination details, and user-friendly navigation using modern web design practices.

## PROFESSIONAL HIGHLIGHTS

Developed multiple full-stack web applications using Django and MySQL

Collaborated on real-world projects involving both frontend and backend

Built solutions integrating software and hardware concepts

Strong problem-solving mindset with quick adaptability
